

Our family listens to K-LOVE constantly! It's positive, encouraging message is a refreshing change from the negative far less moral chatter heard on so many other airwaves. K-LOVE is desperately needed in our community to take us through the day with a message of hope, love, healing, forgiveness and worth as a child of God. How can that be replaced? What community would not be better served if it's citizens were lifted up each day with a message of love through song, prayer and words. Our 15 year old will not listen to any other chanel, my husband drives with K-LOVE on all the time, it reaches old and young, male and female with a timeless message - we are loved! How much better to hear positive K-LOVE than to fill a mind with all the negative rap and rock. Sadly, we've seen the results negative music has on people. K-LOVE builds up a community. We MUST KEEP K-LOVE!!
